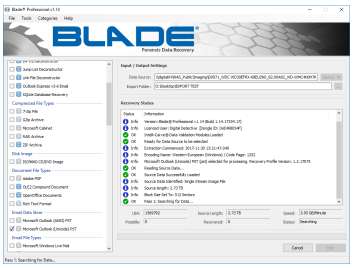
Blade v1.15

- Introduction
- New Data Recovery Profiles
- Change Log



Introduction

We are pleased to announce the release of Digital Detective's Blade® v1.15. This release brings a number of new Recovery Profiles and fixes a licensing issue with some USB licence dongles.

New Data Recovery Profiles

We have created and added some new data recovery profiles for the extraction of the following data types:

- Netscape HTML Bookmark files (used by many browsers to backup and export bookmark entries)
- Registry Hive Files
- Text Files (UTF-16)
- vCalendar Files
- vCard Files
- Microsoft Cabinet Files
- Microsoft Compiled Help Files

Change Log

To see the full change log for this version, please see: Change Log v1.15.
