## Notes

Version 5 is a major release of HstEx® and adds new support for **mobile** and **portable** browsers. We have added **124 new recovery profiles** in this release and added support for browsers such as Mozilla Firefox on Android, SalamWeb on various platforms and Samsung Internet Browser on Android. The user interface has been completely re-written and adds major improvements and new features in a number of key areas. We have improved the layout of the user interface, with the goal of improving productivity, and added support for light and dark themes. See [HstEx v5.0](#) for further information.
